

CNKB

To Be World -class Solenoid
Valve Intelligent Manufacturing Enterprise

Washing machine valve&pump series

- Variety, full coverage , complete certifications;
- Long life, guaranteed $\geq 100,000$ cycles;
- Constant flow accuracy $\pm 10\%$;
- Anti-freezing and burst structure design;
- Strong resistance to sand and silt.

CNKB

To Be World -class Solenoid Valve Intelligent Manufacturing Enterprise

Washing machine valve&pump series

- Commercial release valve with a guaranteed lifespan ≥ 1 million cycles (patented product);
- Long-term use at water temperatures above 100°C complete certifications.

- Anti-adhesion design ,prevent water from not being absorbed;
- The water remains odorless under high-temperature test conditions;
- Maximum service life ≥ 1000 hours;
- The flow loss rate under 95°C hot water is the lowest in the industry;
- 5P water pump has a silent design, with the noise level at 40 dB.

- Lifetime guarantee $\geq 150,000$ cycles
- Wide range , complete certifications

CNKB

To Be World -class Solenoid Valve Intelligent Manufacturing Enterprise

Dustproof and water-resistant;
meeting the IP68 standard;

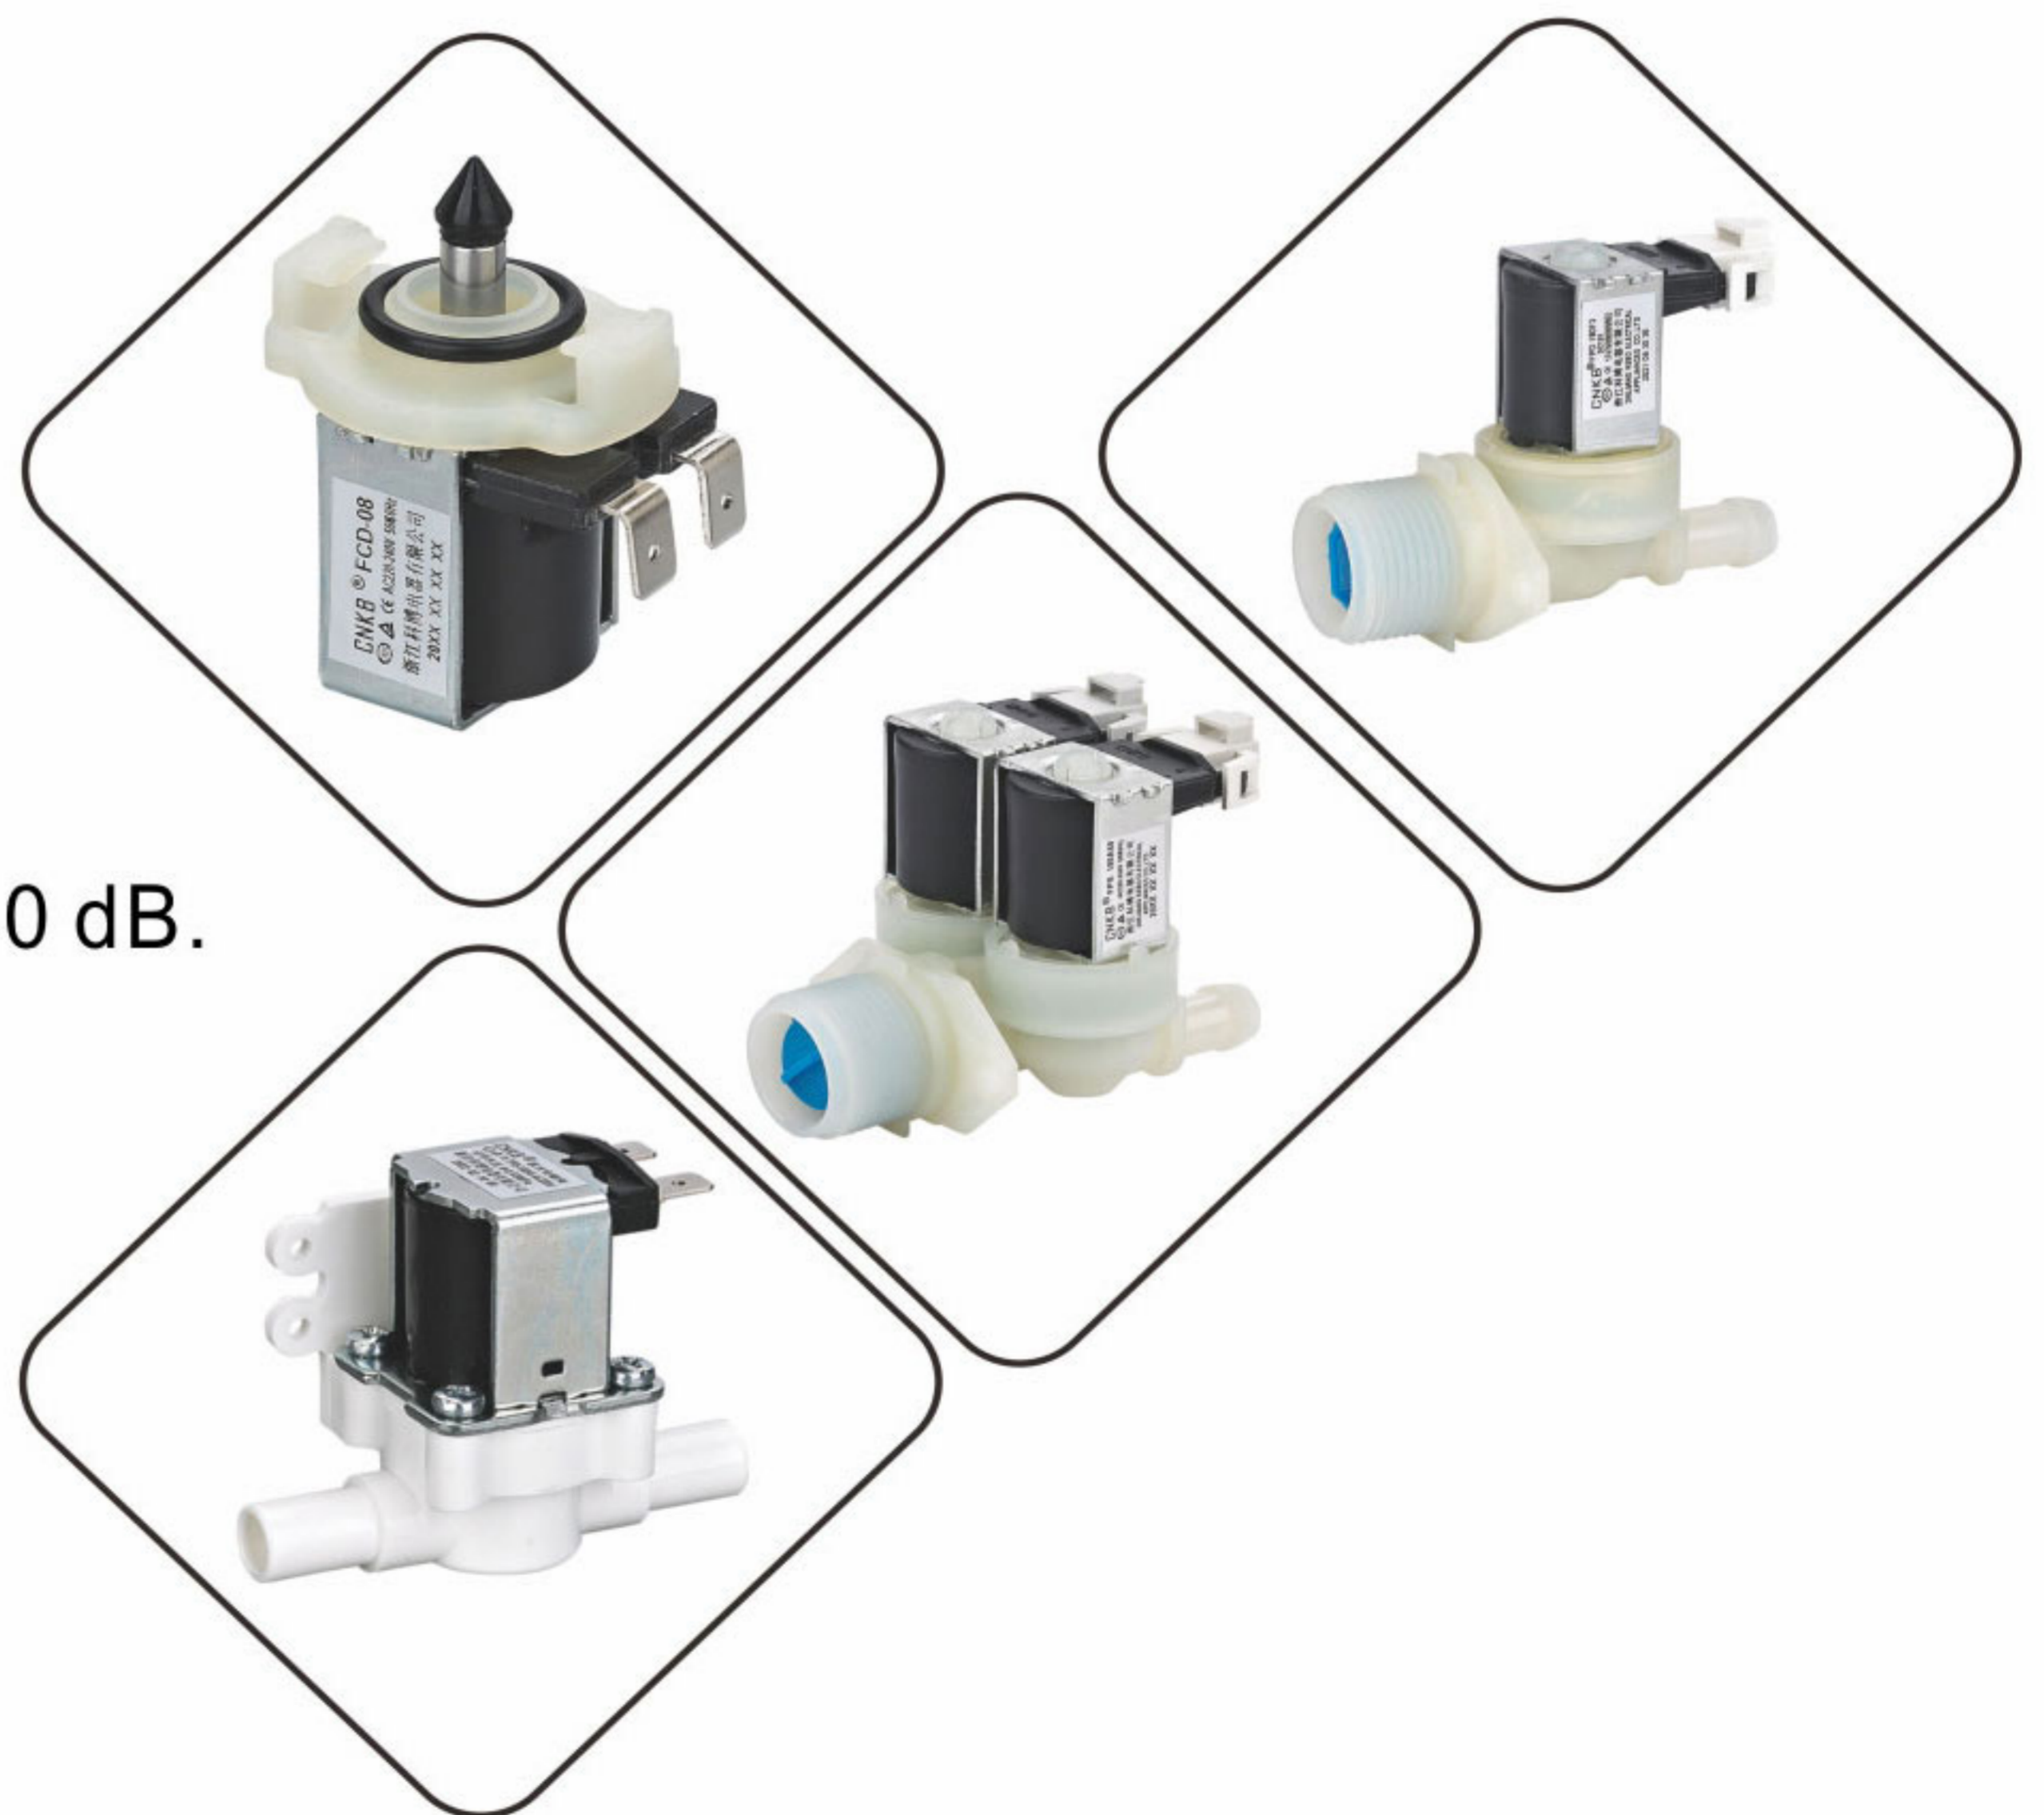

Long lifespan, ≥ 1000 hours;

The AC power operates with low noise, ≤ 40 dB.

Dishwasher valve&pump series

- Variety, full coverage , complete certifications;
- Long life, guaranteed $\geq 100,000$ cycles;
- Constant flow accuracy $\pm 10\%$;
- Strong resistance to sand and silt.

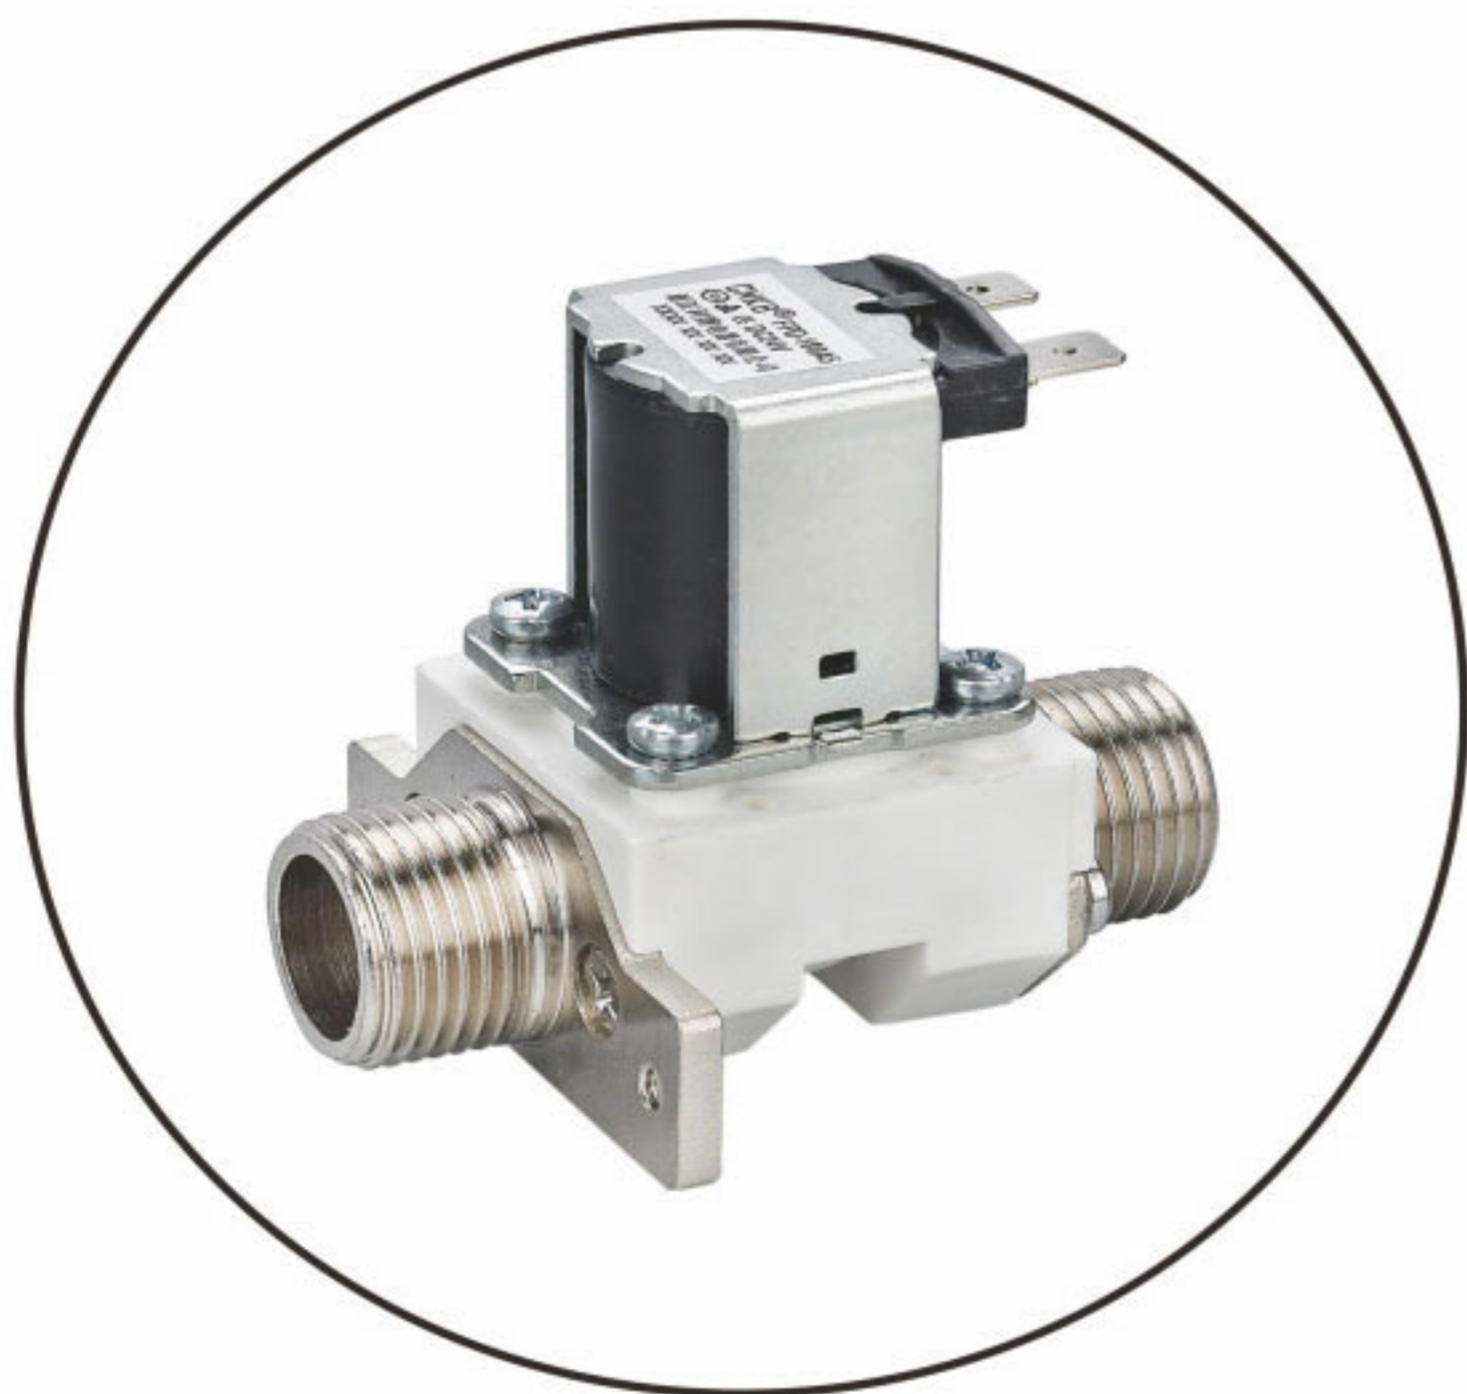

CNKB

To Be World -class Solenoid Valve Intelligent Manufacturing Enterprise

Water heater valve&pump series

- Wide variety, complete series coverage, complete certifications;
- Long lifespan, $\geq 100,000$ cycles;
- High-temperature resistant materials;
- Complies with WRAS certification.

CNKB

To Be World -class Solenoid Valve Intelligent Manufacturing Enterprise

Washing machine valve&pump series

- Stabilization and sealing performance
Comprehensive specifications;
- Lifetime guarantee of over 150,000 cycles;
- Waterproof pressure: 1.5 Mpa;
- Burst pressure: over 3.2 MPa.

- Anti-adhesion design, prevent water from not being absorbed;
- Flow accuracy $\pm 8\%$;
- Maximum service life 1000 hours.

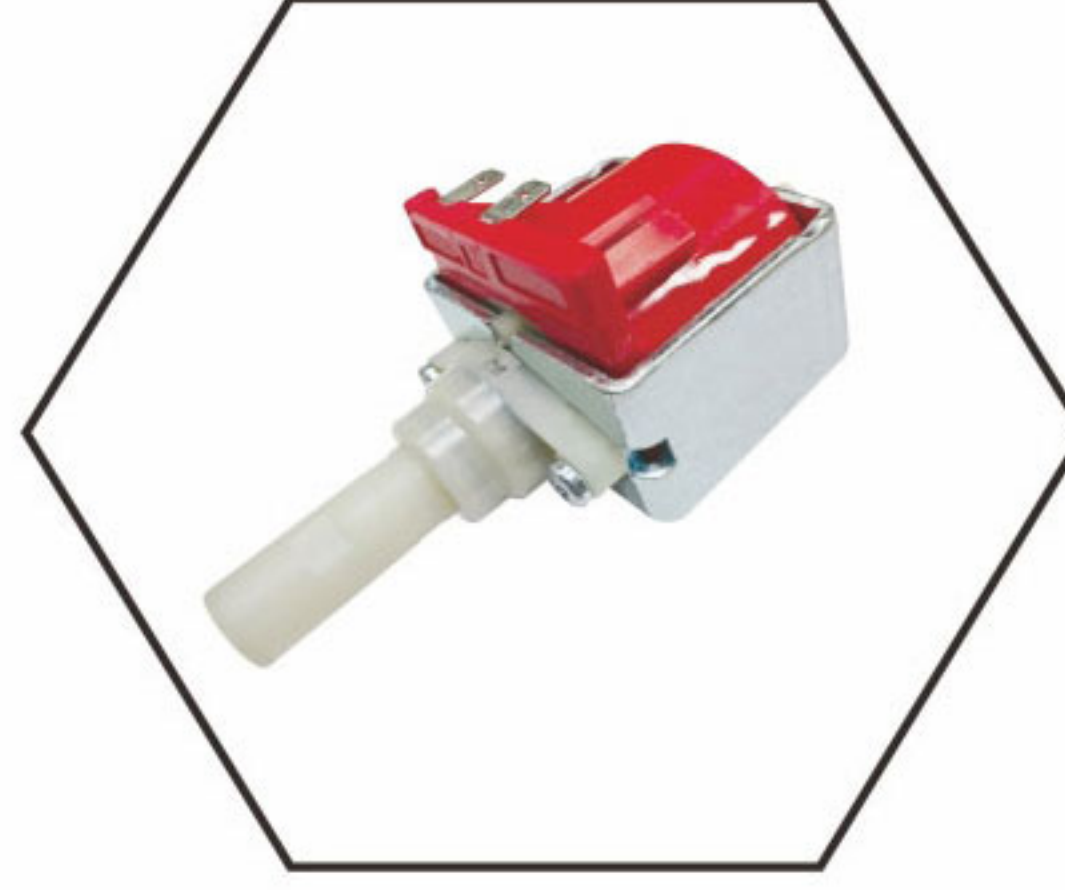

CNKB

To Be World -class Solenoid Valve Intelligent Manufacturing Enterprise

Coffee machine valve&pump series

- Full water pressure, stable pressure regulation performance;
- Comprehensive specifications;
- The flow rate is stable, the lifespan is 100,000 times;
- Anti-water hammer reach 1.5 MPa, explosion pressure is above 3.2 MPa;
- The max operating environment temperature is 125°C;
- It complies with NSF, GB4806, LFGB and other food-grade standards.

CNKB

**To Be World -class Solenoid
Valve Intelligent Manufacturing Enterprise**

Company Profile

Zhejiang Kebo Electrical Appliances Co., Ltd. was founded in 2002, is a national high-tech enterprise, specializing in the research and development, production, sales and service of solenoid valve and precision micro pump for intelligent home appliances. Main Products include washing machine valve&pump, water home appliances valve&pump, dishwasher valve&pump, water heater valve&pump, intelligent sanitary valve&pump, intelligent cleaning appliance valve&pump, coffee machine valve&pump etc seven series.

Basic Status

20 years dedicated to the field of solenoid valves
4 divisions, 6 marketing branches
The headquarter area $\geq 30,000\text{m}^2$
Building area $\geq 60,000\text{m}^2$
Production capacity: 60000000 pcs / year

R&D Capacity

Provincial Enterprise Technology Center
Provincial Enterprise Research Institute
Provincial High-tech Enterprises R&D Center
Doctor Innovation Station
1200 square CNAS test center
More than 200 patents.

Industry Position

Lead enterprise of solenoid valve in China
2 national standard, 6 industry standard drafting unit
